NORTH CAROLINA ASSOCIATION FOR CAREER & TECHNICAL EDUCATION

With more than 85 years of experience, the North Carolina Association for Career and Technical Education (NCACTE) is the professional association for all career and technical educators at the state level, offering services to career and technical education (CTE) professionals. Membership in NCACTE is available to any CTE teacher, administrator, and/or support staff person that may be involved at the middle school, high school, central office, community college, or the university level. NCACTE services and benefits include the following:

- Employs a professional lobbyist to manage our legislative advocacy efforts.
- Publishes a weekly legislative newsletter.
- Provides professional development opportunities.
- Provides a NCACTE website at www.ncacteonline.org.
- Provides an awards program that recognizes outstanding accomplishments as a CTE professional.
- Publishes three editions of NCACTE NEWS per year.
- Manages the Exhibit Trade Show during the NC Department of Public Instruction's CTE Summer Conference.
- Sponsors Fall and Spring Professional Development Workshops.
- Sponsors a training workshop for state level officers and committee members during the NC DPI CTE Summer conference.

Although CTE educators may opt to join just the state association and not the national organization, you are strongly encouraged to affiliate with both. By joining both of these professional associations, you will receive information from both a national and state perspective, have access to peers in state and across the country, and benefit from state and national advocacy. Working together, ACTE and NCACTE give you the tools, resources, and information you need not only to be a successful educator, but also to help you guide America's future workforce and develop the next generation of CTE Educators.

ACTE and NCACTE are committed to your individual success and the promotion and support of CTE as a whole. We are the only professional organizations that are totally committed to serving the interests of career and technical education. The advocacy efforts alone justify the small price you must pay to become a member. Thank you for being a part of your Professional Organization.
